Learning C#, Database SQL server, LINQ, EF, Dot net core, Web API, Onion architecture.

Education

- 2018 – 2022 **computers and artificial intelligence**
Helwan University
GPA: 2.95/4.00 Very Good
Graduation Project grade: Excellent A+

Skills

Technical Skills

C#, SQL Server
ASP.Net MVC, ASP.Net Core, ASP.Net Web API,
vb.net
LINQ, EF Core,
C, Python
HTML, CSS, JavaScript, Bootstrap, jQuery, JSON
Flutter

Soft Skills

Teamwork
Self-learner
Ambition

Concepts

Object Oriented Programming (OOP)
Problem-Solving
SOLID Principles
Design patterns
Clean Architecture

Tools

Visual Studio 2019, Visual Studio 2022, Visual Studio
Code
ms SQL server 2016, ms SQL server 2022
Android Studio, Postman

Projects

My Graduation Project (Custodies Management System)

using .NET Core API

that transformed the process of managing custodies in the inventory to an electronic way and managed. This project helped to reduce dealing with vast amounts of papers and queues.

Payroll System

Web application using .NET Framework 4.7.2 and ASP.NET MVC.

Manages the calculations of employees' salaries and advances.

Includes features for tracking base salary, overtime, bonuses, and deductions and generates detailed reports for both employees and management.

Customer Requests System

Web application using .NET Framework 4.7.2 and ASP.NET MVC

Import customers and export requests as CSV or XML files.

Using Kendo Grid and RDLC reports.

Using a QR scanner to insert the QR data into the database.

Accounting & Stores System

Web application using .NET Framework 4.7.2 and ASP.NET MVC

Accounting System

Microservices web application from scratch using .NET 5

.NET web app connect with Windows Service

Make Print of PrintDocument from windows service

and publish web app to IIS

Image comparison Windows App

using C#

find the percentage difference between the two images. and apply this in web application also.

Image Quality Assurance Windows App

using C#

get Length, Height, Darkness, Skew, Record Size, and Noise of an image.

and compare these values with the values I have to know if the image has a problem or not

Attendance Flutter App

Integrate fingerprint and faceprint authentication, and call backend .NET APIs.

Basic Banking System

using .NET Core MVC

Create a simple dynamic website to transfer money between multiple customers, and deploy it in the Azure server.

Address book project

using .NET Core API

Manage CRUD operations.

Handwritten English letters using Artificial Neural Network (Python)
